MADE IN THE UK

THE KING'S AWARDS FOR ENTERPRISE
2024
INNOVATION

It's our mission to make every entrance exceptional

At Korniche, we believe beautifully designed products should make a genuine difference to the way a home looks, feels and performs. By combining innovative thinking with precision engineering, we create products that offer outstanding style, everyday practicality and lasting performance.

Manufactured in the UK, the Korniche Entrance Door brings this philosophy to the most important entrance to your home. Developed from our award winning aluminium folding door system, it combines a thermally insulated panel clad in aluminium with carefully selected hardware to create a door that feels reassuringly solid, operates effortlessly and performs day after day.

Every element has been considered to provide a refined and dependable entrance, from the quality of the materials and finishes to the smooth operation of the locking system.

Available as a single door or combined with side lights and top lights, the Korniche Entrance Door provides the flexibility to create anything from a simple, understated entrance to a larger architectural feature.

Produced using advanced fabrication methods and rigorous quality controls at our UK manufacturing facility, it is designed to welcome you home, complement your property, enhance its curb appeal and make a lasting impression.

Style starts at the door

Make an entrance, your way

Your entrance should make the right impression while performing effortlessly every day. The Korniche Entrance Door brings together extensive design choice and considered engineering, giving you the freedom to create an entrance that complements your home and confidence that it will continue to perform for years to come.

Designed around your home

Your entrance should complement the style and character of your home. With more than 40 contemporary and classic panel designs, the Korniche Entrance Door gives you the freedom to create a look that is distinctly yours.

Choose your glazing, decorative trims, colour and door furniture, with bespoke colour options available for a truly individual finish. Whether your style is bold and modern or subtle and traditional, every detail can be specified to complement your property.

Engineering you can rely on

Behind its refined appearance is the precision engineering that defines every Korniche product. High-quality materials, durable powder-coated finishes and carefully considered components combine to deliver lasting performance and effortless everyday operation.

Security is engineered into every detail, with a choice of lift-to-lock or slam-shut multipoint locking systems, a three star cylinder and PAS 24 third party testing providing additional peace of mind.

PAS 24:2022
CERTIFICATION

PAS24 SECURITY*

Your front door should provide confidence as well as style. The Korniche Entrance Door has been independently tested and certified to PAS 24, the recognised benchmark for enhanced security in doors and windows.

Find the panel that fits your home

From classic to contemporary, there's a style for every taste

Your door design begins with the panel. Choose from over 40 designs and personalise your door with glazing, decorative trims, a range of standard colours or a bespoke finish. From clean, modern lines to more classic detailing, there is a design to complement the character of your home. Each panel combines robust aluminium skins, a thermally insulating RAVATHERM™ core and two layers of 4 mm MDF for added strength, finished in a durable powder coating. Selected glazed designs feature high-performance double glazing for an attractive balance of style, comfort and performance.
